The parish of St. Joseph extends a warm welcome to all our guests. We are pleased that you have come to pray with us. May the Lord bless you!

СЛАВА ІСУСУ ХРИСТУ! СЛАВА НА ВІКІ!
Парафія святого Йосифа сердечно вітає всіх гостей, які прибули до нас на Богослуження. Нехай Бог вас благословить!

Dear Beloved Parishioners and Guests of St. Joseph's,

Our 3 days in Yorkton for a Spiritual Renewal Workshop were a wonderful experience. Some 30 of us, under the excellent guidance of Anne Walsh, a Newfoundlander, offered challenging "input" and capably monitored our discussions. "Partners in Mission" means gathering active committed lay people in our various parishes to help us in our CSSR ministry – for this we are most thankful!

From the Pastor's Desk

This morning **Nov. 1st** I was most fortunate to participate in a special Queen Elizabeth II Diamond Jubilee Medal Award ceremony at the Manitoba Legislature. Some **68 Manitobans** from all walks of life, from all faiths and all nationalities were honored for their contribution to the betterment of Canada. All the Manitoba MLA's were participants in this commemorative event. Premier Selinger eloquently shared that this medal was to honour various giving people who have generously gone out of their way and forgotten themselves in order to more greatly serve their community wherever they lived and worked.

Among the recipients were artists, teachers, community leaders, volunteer organizers, special olympic athletes from Thompson, Flin Flon, Dauphin, Brandon, Winnipeg, etc – be they Aboriginal, Metis, Philippines, Latin Americans, and yes, even fellow Ukrainians. Many proud family members were excited to witness this unique ceremonial event and to give thanks for all the individuals who have enhanced the Province of Manitoba. In the words of the Governor General of Canada: *"In granting you this honour, I thank you for your dedicated service to your peers, to your community and to Canada. The contributions you have made to our nation are most commendable and deserve our praise and admiration."*

Yes, it's true! Your pastor was nominated for this special Service Medal and I truly feel humbled to be so honoured...

Many of you will have chosen to enjoy the veritable feast that our UCWL have prepared for you today – our famous **Annual Fall Supper**. This is also a great Fund-raiser for our ladies. The K of C. Dinner and Draw on **Nov. 17th** is a special fund-raising event to support and to enjoy! Both organizations welcome new members!!!

Next Sunday during the 11 am Liturgy, we will commemorate **Remembrance Day** – for all who died in defense of freedom and peace. Please be prepared to participate this important date that will be hosted by our Brother Knights. Do have a wonderful, peaceful and loveful day!

The Jesus Lifestyle

What's it about? Our culture is obsessed with lifestyle. Magazines and websites tell us what to wear, how to get fit, what to drive and how to love. Everyone wants to tell us how to live our lives. Jesus didn't leave us a lifestyle magazine; he sat down on a mountainside and began to teach.

How to deal with anger. How to handle money. What to do when faced with difficult people. Simple, memorable and profound. Jesus' words in the **Sermon on the Mount** are as relevant and as challenging today as they were 2,000 years ago.

In this engaging and fascinating study **Nicky Gumbel** takes a closer look at the Sermon on the Mount and presents, with his familiar mix of humour and wisdom the life that Jesus wants us to live.

Please join us in the church auditorium Sunday mornings 10:00 am sharp - 11:00 am for this interesting video series. No books! No Homework: Everyone is Welcome!

The person that should be addressing you is Vlad Solman who was the first St. Joseph's Parish Council Chairperson in 1969 and 70. Vlad has been committed recently to moving out of one house and moving into his new condo so is unable to give this the dedication he would have desired. I then drew the short straw. I suggested that maybe someone older should take this position at which time I was invited to look in the mirror.

Joan and I have been active in St. Joseph's Parish since the early 1970's. Joan was a catechism teacher then Catechism Program Coordinator for many years. I was Parish Treasurer and later Parish Council Chairman in 1985 to 1987.

I will speak about some of the physical aspects of the Parish that is the building. I wasn't around for the building of the Church, with the basement in 1954 and the main building in 1963, but after a number of years, starting in the 70's many renovations took place and will continue to keep this church as beautiful as it was initially intended. In looking back, nothing stands still here for long. The tremendous undertaking, financing, and construction of the church say much about the spirit that lives within St. Joseph's parishioners.

The first major renovation was the extension of the sacristy and sanctuary. That left a significant amount of bricks for future consideration. Some of you may recall the stacked bricks behind the church. These got in the way often and were moved many times. One such move was by K and W Construction otherwise known as Fathers Krawchuk and Wiwchar. However, these bricks played a part in the construction of the Shrine and Museum many years later.

One day in the late 1970's a substantial piece of concrete was found lying on the front steps of the Church. It was found to have fallen from one of the ribs on the domes above. Similarly, a very timely rainstorm showed us, while in Church one Sunday, the leaking roof and leaking windows. Repairs needed to be made, the original contractor for the domes (Ernie Keller) was engaged to repair those concrete domes and after a sermon of the amount by Father Ted, the leaky roof and window project was undertaken and was paid for in a matter of a couple of years.

Mr. Keller told us the story of his first major job when coming to Canada, as a brick contractor for the building of the Church. The architect had not sized the space between columns of the walls to accommodate standard brick dimensions. Ernie had not realized this when bidding the job but learned the hard way as he had to cut bricks to make a fit. I will challenge you to look at the side walls of the Church to see if you can see where the under-sized bricks are placed.

Shortly after that, to make the church more accessible we constructed a ramp at the front of the Church that exists today. In spite of our desires, Mr. Michalchyshyn and others still insisted on taking the steps to Church as opposed to the ramp. To make things more accessible, we decided to proceed with the construction of a lift at the entrance of the Church. Our estimated cost to do this was about \$125,000 of which we obtained a \$50,000 grant from the Province. That seemed to be a pretty good deal. Then a committee was struck to look at the development of the basement and the handicapped lift wasn't good enough...a full elevator from basement to the choir was desired. That whole exercise came to a cost of some \$245,000 but our grant remained the same at 50. This apparent financial burden did not deter the parishioners and in no time it was paid for as well.

While renovating the kitchen we found how well our forefathers had designed and built this Church. This Church has three basements. The first basement ended right at the back of the little stage in the basement. We thought of modifying that when re-doing the kitchen but then had second thoughts. The other two parts of the new basement are the storage room on the right, which came later, as well as the youth room on the left. Therefore, the basement was completed much as it is today.

A mosaic fund existed for some years with little activity until the mid-1980s. Mr. Makarenko was invited by Father Bohdan to make a presentation to the parish for the installation of mosaics to decorate the church. In that one afternoon, funding was committed, Mr. Makarenko was commissioned and you see the end result in the church. We did make one very small error in some of the frames for the mosaics...but I will not tell you where to look.

My most rewarding experience in these various projects came with the building of the shrine and museum. The design of these additions was complicated as we had limited space both horizontally and vertically to construct without destroying the general appearance of the Church. We needed to penetrate the walls of the Church right where two mosaics of the Stations of the Cross had been installed. Our designers, architect Brian Tokar and Ben Wasylyshyn did an admirable job. We didn't really have a firm budget to undertake this work because our instructions from Parish Council and through the Committee was to make this fitting for a once in a life time experience for people visiting the shrine. Our contractor and his workforce treated this project with extreme reverence. On visiting the construction site hardly a sound was heard other than the noise of certain pieces of equipment. Voices in discussion were low. There were no four letter words expressed as is quite normal on a construction site. The workers really respected the place that they were working in and what they were building.

During this project, we expanded our vestibule to extend to the limit of the choir loft. We were very concerned about losing three or four pews in the process but we felt that a gathering space at the entrance was more desirable. We removed the two end icons, brick and all, and placed them in the new internal walls and I defy anyone to show the joints of the old and new construction. A supreme compliment that we received was that *"this looks like it was always here"*. That shows truly good design.

On completion of the shrine and museum project the Committee actually solicited criticism. Criticism usually comes rather easily when you are building. To this day, I have not heard one negative comment about that project. Oh, and by the way, the four hundred some odd thousand that this cost has long been paid for.

Lastly, in the mid-80s we embarked on acquiring properties on the north side of Jefferson with the hope of possibly building a seniors' residence sometime in the future. We acquired some nine properties in the intervening years, obtained mortgages and rented them to pay for the debt. With changing demographics that process was abandoned and the properties were sold in 2009-10. Although we don't own those properties any further the sale resulted in net earnings of some \$500,000 which leaves a legacy for the Parish for activities and major projects in the future.

Although I have spoken of physical things, buildings, at this Church it is the spirit within the Church that drives the successful completion of these for the benefit and use of the Parishioners past, present and future. As long as the spirit lasts the Parish will continue well into the future, undertaking and successfully completing anything that is of value to the Parishioners at that the time. It has been a wonderful sixty years, many more to come.
